## General Lee on Traveller - - 1863

"TRAVELLER," Lee's famous horse, shared his master's toils and hardships through four years of constant warfare. Lee, himself described him in these words:

"If I were an artist I would draw a true picture of Traveller—representing his fine proportions, muscular figure, deep chest and short back, strong haunches, flat legs, small head, broad forehead, delicate ears, quick eye, small feet, and black mane and tail. Such a picture would inspire a poet, whose genius could then depict his worth and describe his endurance of toil, hunger, thirst, heat, cold, and the dangers and sufferings which through we passed."

**I Believe . . .**

Intercollegiate athletics have become a basic part of the program of activities in the life of the students and alumni at present day public institutions of higher learning.

We are striving to keep this phase of our activities in proper perspective so that our total program at Morehead State College may be made stronger.

The coaching staff is dedicated to the task of training boys for leadership and useful citizenship in a democracy through the medium of competitive sports.

Our friends and supporters are cordially invited to the games, and continued good will and cooperation are necessary in our efforts to develop a greater Morehead State College.
